Mr. Schlesinger  
Chairman  
Atomic Energy Commission  
Washington, D.C.

Dear Sir:

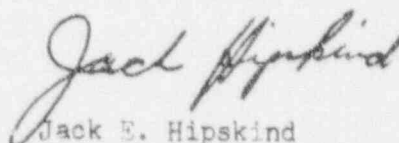

Would it be possible for you to bring me up to date on the current status of State versus Federal control over the radioactive emissions permitted from nuclear reactors?

I am specifically thinking of the Northern States Power Company (Monticello, Minnesota) case the resulting restrictions actions of the states of Vermont, Maryland, and Illinois.

Who is actually in charge of this situation?

Thank you,

Sincerely,

  
Jack E. Hipskind
