U.S. NRC REG.-II
Atlanta, Ga.

Mr. J. Philip Stohr, Director
Division of Radiation Safety & Safeguards
U.S. Nuclear Regulatory Commission, RII
P.O. Box 2203
Atlanta, Georgia 30301

Dear Mr. Stohr:

Reference: (1) NRC License SNM-1097, Docket # 70-1113
(2) NRC Inspection Report 70-1113/84-14 dated 11/06/84
(3) Letter, CM Vaughan to JP Stohr, 12/3/84
(4) Letter, JP Stohr to EA Lees, 2/1/85
(5) Letter, CM Vaughan to JP O'Reilly, 2/6/85
(6) Letter, CM Vaughan to JP Stohr, 2/15/85

On December 3, 1984, General Electric Company Nuclear Fuel Manufacturing Department responded to the inspection conducted at our licensed fuel fabrication plant by Mr. D. W. Jones of your office on October 1-5, 1984. On February 6, 1985, GE-NFMD submitted further information related to this inspection which concerned bias corrections.

On February 1, 1985, the NRC formally accepted the GE-NFMD response to the fourth violation in Inspection Report 84-14 and requested further response to the first three apparent violations. This information is given in the attachment to this letter.

Pursuant to 10 CFR 2.790(d), General Electric Company requests that the attachment to this letter be withheld from public disclosure since this attachment identifies details of the General Electric control and accounting procedures for safeguarding licensed special nuclear material.

General Electric personnel would be pleased to discuss this matter further with you and your staff as deemed necessary.

Sincerely,

GENERAL ELECTRIC COMPANY

Charles M. Vaughan
