Atec Associates, Inc.  
ATTN: Dave Fuller, Assistant  
Vice President  
3020-H Congressional Parkway  
Fort Wayne, IN 46808

License No. 13-26405-01  
Docket No. 030-32747

Dear Mr. Fuller:

SUBJECT: NOTICE OF VIOLATION DATED AUGUST 19, 1992

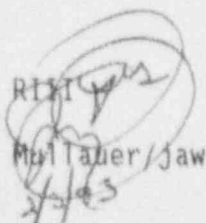

This acknowledges receipt of your letters dated September 5, and 17, 1992, in response to our letter dated August 19, 1992, transmitting a Notice of Violation.

Your response indicated that in an attempt to improve your program management, you have designated a new staff person to be the Radiation Safety Officer for the Fort Wayne office. As Mr. J. R. Mullauer of my staff discussed with you on February 1, 1993, an amendment to your license is required before the responsibilities of the Radiation Safety Officer can be delegated to a new individual. Therefore, we caution you regarding this transfer of responsibility before it has been approved by the NRC. Your corrective actions for the violations appear adequate and will be examined during future inspections.

Sincerely,

B. J. Holt, Chief  
Nuclear Materials Inspection  
Section 1
