

Harold L. Price, Director
Division of Licensing and Regulation

Marvin M. Mann, Assistant Director for
Compliance, Division of Inspection

LINDSAY CHEMICAL DIVISION OF AMERICAN POTASH AND CHEMICAL, WEST
CHICAGO, ILLINOIS, EXPORTS OF SOURCE MATERIAL, LICENSES NO.
R-106 AND C3377 - 10 CFR 40

SYMBOL: INS:LDL

During an inspection of licenses 12-4932-1, R-106 and C-3377 by
Inspection Division, CH, on June 12, 1959, the inspection repre-
sentatives obtained a list of the exports of source material by
subject company. The list indicated that the company exported
to Canada a total of 9000 pounds of thorium oxide under licenses
S-5088A, S-5148D, S-5337B, and S-5380B. A copy of this list was
appended to the inspection report dated July 6, 1959, a copy of
which was furnished you by CH on July 20, 1959.

Lyall Johnson of your Division has informed us that his office
has no record of having issued licenses with the above numbers.

Since it appears that subject licensee exported source material
to Canada on the basis of licenses that apparently do not exist
in AEC files, we suggest you may wish to consider calling the
apparent noncompliance with 40.10 to their attention. Copies of
a CH memorandum dated October 27, 1959, relating to this problem
were sent to R. E. Cunningham and L. Johnson on November 13, 1959.

Unless additional information is desired, we plan to take no
further action in this case.
