This refers to your memorandum of December 11, 1959, regarding the  
same subject.

The inspection report submitted to us by COO on July 21, 1959,  
stated that no items of noncompliance were observed or otherwise  
noted during the inspection. The licensee was so informed by our  
letter, dated September 4, 1959.

With regard to these licenses listed in the report's Exhibit A which  
were apparently never issued, we feel that this could well have been  
a clerical error in noting license numbers, rather than a violation  
of the regulations. Since this matter was not explored by the  
inspector during the inspection nor was it brought up in our letter,  
we feel that a matter of this sort could be more expeditiously  
handled and clarified during the next scheduled inspection rather  
than writing to the licensee at this late date.
