

UNITED STATES GOVERNMENT

Memorandum

TO : Region III Files

DATE: October 30, 1962

FROM : J. G. Davis

SUBJECT: TELEPHONE CALL FROM TOM BROCKETT, HQ,
TO J. G. DAVIS 10-30-62.

Brockett called with regard to the Lindsay Chemical report. He stated that there were two questions raised by enforcement.

1. The citation against 20.301, with regard to disposal in the pit.

Enforcement desires to know whether this is truly a disposal or whether this is a retention pit.

2. With regard to incineration, it appears that the monazite being incinerated is unrefined ore.

Enforcement is of the opinion that consequently, they cannot cite under 20.305.

Davis agreed to look into this, and to transmit a memo in writing regarding this.
