RE: Proposed Ground Water Sweep for Research and Development Project
10 R&D.

Dear Mr. Pelizza:

We have received your May 14, 1985 and May 17, 1985 letters outlining the 1985 operating plan for the North Platte Project. The review of this plan was coordinated between the Water Quality Division, Land Quality Division, and Nuclear Regulatory Commission.

The Water Quality Division and Land Quality Division concur with the Nuclear Regulatory Commission's recommendations on the operating plan as specified in Sandra Wastler's letter. Therefore, the NRC's concerns must be addressed to satisfy DEQ.

As Mr. Roy Spears told you during the May 23, 1985 telephone conversation no new activities can begin at the project until the operating plan is approved and a DEQ representative is present.

If you have any questions please feel free to contact either of us.

Sincerely,

Cathleen L. McCarty
