Inspection Summary

Inspection Conducted May 20-24, 1985 (Report 50-382/85-19)

Areas Inspected: Routine, unannounced inspection of the licensee's Security Plan and procedures, management effectiveness, security organization and management, security program audit, testing and maintenance, assessment aids, security officer qualification and training, and records and reports. The inspection involved 40 inspector-hours of direct inspection time by one NRC inspector.

Results: Within the areas inspected, no violations or deviations were identified.
