Sam Duraiswamy, Chief
Nuclear Reactors Branch

SUBJECT: REASSIGNMENT OF SUBCOMMITTEES CHAIRED BY MR. CARROLL

The ACRS Chairman has made the following reassignments that will become effective immediately following the May 23-25, 1996 ACRS meeting:

Human Factors	-	G. APOSTOLAKIS
Advanced Boiling Water Reactors	-	W. J. LINDBLAD
ABB-CE Standard Plant Designs	-	W. J. LINDBLAD
Occupational & Environmental Protection Systems	-	R. L. SEALE
Maintenance Practices and Procedures	-	C. J. WYLIE
Plant Operations	-	C. J. WYLIE

Also, the Chairman has decided to abolish the Simplified Boiling Water Reactor Subcommittee at this time, because of the GENE's decision to redirect its passive plant design program to a larger-size plant (1000 MWe). This subcommittee could be reinstated after GENE has submitted an application for the 1000 MWe plant.
