Dear Ms. Saul:

The purpose of this letter is to forward Emergency Response Data System (ERDS) implementation documents. Enclosed you will find Data Point Library (DPL) updates for Catawba (number 209), WNP2 (number 211), Surry (number 212), and Grand Gulf (number 213). In addition, you will find a Plant Attribute Library update for Grand Gulf (number 210). Although not directly stated in the licensee's letter, I have confirmed that Grand Gulf will transmit the default values for the quality tags that they are supporting.

If you have any questions, please call me at (301) 415-6383 or e-mail me at jrjl@nrc.gov.

Sincerely,
