

AUG 1 1985

Mr. Jerry D. Stephens, Regional Director  
Federal Emergency Management Agency  
Region VI  
Federal Center  
800 North Loop 288  
Denton, Texas 76201-3698

Dear Mr. Stephens:

This is to acknowledge your letter of July 9, 1985, requesting NRC Region IV assistance in obtaining space and equipment for FEMA emergency response team members at the Comanche Peak site. We are planning to meet with Comanche Peak emergency planning representatives in September to discuss site specific provisions for the NRC expanded site team and will incorporate the requirements identified in your letter in the discussion. I will keep you informed of the results of this discussion and the accommodations provided.

We look forward to continued cooperation with your office on site specific planning for the federal response to emergencies at fixed nuclear facilities in our joint area of responsibility.

If additional information is needed, please do not hesitate to have your staff contact Mr. J. B. Baird (FTS 728-8185) of this office.

Sincerely,
