RE: License number 12-18044-01 MD (Chicago) Control No. 77191

Dear Dr. Adam:

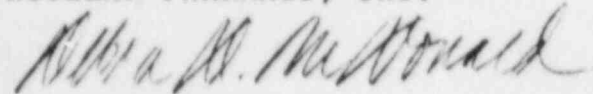

This letter is being written in response to your letter dated January 11, 1985. At the time the July 25, 1984 amendment request was written, the floor plan enclosed contained an accurate description of the facility. In light of the subsequent order modifying the license, and in an attempt to improve the work flow pattern, separation of restricted and non-restricted areas, and minimize driver entry into the restricted area, changes in the floor plan were made and a new floor plan submitted on January 2, 1985. Another copy of the more recent floor plan has been enclosed for your review.

Should you require additional information, please feel free to contact me.

Thank you for your assistance.

Sincerely,

NUCLEAR PHARMACY, INC.
