ORDER IMPOSING CIVIL MONETARY PENALTY

I

Florida Power Corporation (licensee) is the holder of Operating License No. DPR-72 (license) issued by the Nuclear Regulatory Commission (Commission) which authorized the licensee to operate the Crystal River facility in accordance with the conditions specified therein. The license was issued on January 24, 1979.

II

A routine safeguards inspection of the licensee's activities was conducted on August 12-16, 1984. As a result of this inspection, it appeared that the licensee had not conducted its activities in full compliance with the conditions of its license. A written Notice of Violation and Proposed Imposition of Civil Penalty was served upon the licensee by letter dated January 10, 1985. The Notice stated the nature of the violations, requirements of the Commission that the licensee had violated, and the amount of the civil penalty proposed for the violations in the Notice. A response to the Notice of Violation and Proposed Imposition of Civil Penalty dated March 1, 1985 was received from the licensee. In addition, the licensee met with the Director, Office of Inspection and Enforcement, on May 8, 1985 to discuss the violations.
