ORDER  
(Rulings on CCANP 9/30/85 Motion)

On September 30, 1985, CCANP filed a "Motion for Board Ordered Production of Documents, To Reopen the Record, For New Contention, For Discovery, and For Extensions of Time" (Motion). On October 10 and 15, 1985, the Applicants and NRC Staff, respectively, filed their responses.

The Motion essentially seeks to reopen the Phase II record to admit two documents: (1) a report prepared by S. Levy, Inc., on Brown & Root Engineering on the South Texas Project, dated October 1, 1984 (SLI Report); and (2) a chronology of events prepared by Mr. Don D. Jordan (Jordan Chronology). CCANP also seeks additional related relief.

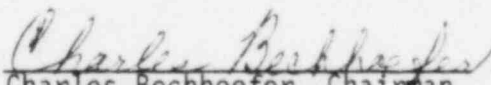

For reasons which we will set forth in a forthcoming Memorandum and Order, we have determined to admit into the Phase II record the Jordan Chronology but to deny admission of the SLI Report, as well as all other relief requested by CCANP (except for the extension of time granted by

DS02

our Memorandum and Order dated October 4, 1985). The Jordan Chronology will be denominated as CCANP Exhibit 148.<sup>1</sup> CCANP and the Staff may refer to it in their proposed Phase II findings, and the Applicants may respond in their Phase II reply findings. We are issuing this summary Order at this time to accommodate the filing dates which we approved in our October 4, 1985 Memorandum and Order.<sup>2</sup>

IT IS SO ORDERED.

FOR THE ATOMIC SAFETY AND  
LICENSING BOARD
