422 South Church Street
Charlotte, NC 28242

Gentlemen:

SUBJECT: REPORT NO. 50-414/85-41

On September 17-20, 1985, NRC inspected activities authorized by NRC Construction Permit No. CPPR-117 for your Catawba facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicate that certain activities violated NRC requirements. This item and references to pertinent requirements are listed in the Notice of Violation enclosed herewith as Enclosure 1. Corrective actions to prevent recurrence were completed prior to the conclusion of this inspection; therefore, a reply is not requested.

Should you have any questions concerning this letter, please contact us.

Sincerely,

for Vincent Panarella

Virgil L. Brownlee, Chief
Reactor Projects Branch 2
Division of Reactor Projects
