Standard Since 1857

ST. LOUIS 7, MO.

May 19, 1955

Mr. Charles Edwards  
The Licensing Bureau  
Atomic Energy Commission  
Washington D.C.

Thank you very much for your phone call last week. This is just a note to let you know that I appreciate the information and plan to make good use of it. The increased assurance that a continuing supply of thorium raw materials will be available is valuable.

Did this change in the licensing policy come about because of a clarification in the extent of expected use of thorium-magnesium alloys? We have heard of no well defined timetable according to which these uses might develop in the missile program.

Thank you again for the phone call. Please say "hello" to Mr. Johnson for me.

Sincerely yours,

MALLINCKRODT CHEMICAL WORKS
