Inspection Summary

Inspection Conducted July 15-19, and July 29 - August 1, 1985 (Report 50-458/85-55)

Areas Inspected: Routine, announced inspection of management effectiveness, security organization, records and reports, lock and key controls-personnel, physical barriers-vital areas, detection aids-vital areas, communications, and follow-up on inspector identified areas. The inspection involved 132 inspector-hours onsite by two NRC inspectors.

Results: Within the nine areas inspected, no violations or deviations were identified.
