Dr. W. E. Konneker
Nuclear Consultants Corporation
9842 Manchester Road
St. Louis 19, Missouri

Dear Dr. Konneker:

We are enclosing Amendment No. 3 to License No. 24-4206-1 in response to your application of April 13, 1960.

Your entry in Item 1(b) of the form AEC-313 describes the place of use for the sealed sources which you propose to leak test as Nuclear Consultants Corporation, 9842 Manchester Road, St. Louis 19, Missouri. However, it is stated in the application that "These filter papers will be carefully placed in thin plastic bags and returned to our laboratories to be checked." This indicates that you desire to use sealed sources for the purpose of making leak tests at your customer's facilities. If this is your wish, you must furnish a list of the states in which you anticipate performing the tests.

Very truly yours,

Cecil E. Buchanan
Assistant Chief, Isotopes Branch
Division of Licensing and Regulation
