August 12, 1985

NUCLEAR LICENSING & SAFETY DEPARTMENT

U. S. Nuclear Regulatory Commission
Office of Nuclear Reactor Regulation
Washington, D. C. 20555

Attention: Mr. Harold R. Denton, Director

Dear Mr. Denton:

SUBJECT: Grand Gulf Nuclear Station
Unit 1
Docket No. 50-416
License No. NPF-29
File: 0260/0840/L-860.0
Withdrawal of Proposed
Amendment to the
Operating License
(PCOL-85/11; Additional
Submittal)
AECM-85/0248

Reference: Letter from O. D. Kingsley, Jr. to Mr. Harold R. Denton dated July 12, 1985 (AECM-85/0211)

Mississippi Power & Light (MP&L) Company submitted a proposed change to Facility Operating License, NPF-29, as item 7 in the reference letter. This change is considered to be purely administrative in the nature and intended to reduce the burden of requiring revision to the Operating License with each Technical Specification amendment. During recent discussions with your staff, it was determined that this change is not consistent with your past practices and working procedures. Therefore, MP&L wishes to withdraw this proposed change to Facility Operating License NPF-29 at this time.

Feel free to contact my office if there are questions regarding this issue.

Yours truly,
