Mr. Lyall Johnson
U. S. Atomic Energy Commission
Licensing Division
1901 Constitution Avenue
Washington, D. C.

Subject: Source Material License No. C-2734

Dear Mr. Johnson:

We request that our source material license No. C-2734 be amended to include an additional 500 pounds of natural uranium metal to be obtained from the AEC as reject slugs.

We further request that this license permit us to transfer and deliver possession of and/or title to this source material to any person licensed by the Atomic Energy Commission within the limits of his license.

We would appreciate your early action on this amendment since we have had considerable inquiries for small poundage of uranium metal, source grade.

Very truly yours,

Frederick M. Belmore

Frederick M. Belmore
