Mr. Joseph M. Corrigan  
Post Office Box 714  
Carmel, NY 10512

IN RESPONSE REFER  
TO FOIA-85-401

Dear Mr. Corrigan:

This is in response to your letter dated May 24, 1985, in which you requested, pursuant to the Freedom of Information Act (FOIA), all records relating to NRC requests for non-military or military personnel, including the Green Beret Forces, to penetrate and or evaluate the physical protection plans of nuclear power facilities within the United States, particularly Units 2 and 3 of the Indian Point nuclear power plant in Buchanan, New York.

The staff has informed me that the NRC does not request Green Beret, military or non-military personnel to penetrate or evaluate the physical protection plans of nuclear power facilities. The NRC does, however, have an interagency agreement with the U.S. Army 1st Special Operation's Command to provide assistance in evaluating implemented safeguards systems at selected nuclear facilities, which is conducted as part of NRC's Regulatory Effectiveness Review (RER) program. The staff identified the records listed on the enclosed appendix as being related to your request. Documents one through seven are being placed at the NRC's Public Document Room (PDR), 1717 H Street, NW, Washington, DC 20555 in file folder FOIA-85-401. Document eight has previously been placed at the PDR. Access to this document may be acquired by referencing accession number 8504160234 when contacting the PDR. In the event you decide these records are of interest to you, I have enclosed a copy of procedures for obtaining records from the PDR.

An attempt was made by Nina Toms to reach you by telephone to discuss your request. If you have questions regarding our response to your request, Ms. Toms may be reached at (301) 492-8993. In addition, if you decide to submit additional FOIA requests, we suggest that you include a telephone number where you can be reached in the event NRC staff members have questions regarding your requests.

Sincerely,
