Docket No. 50-323, OL-DPR-81
Diablo Canyon Units 1 and 2
Revision 13 of the Security Plan

Dear Mr. Martin:

Enclosures 1, 2, and 3 contain safeguards information relating to changes in the Diablo Canyon Power Plant Security Plan. These changes are primarily in response to NRC letter dated July 19, 1985, which contained "Comments on Security Plan Change - Revision 12" (NRC Comments), although several other changes to the Plan are also included. Some changes required repagination, and a new revision number (Revision 13) has been assigned to the Plan. Enclosure 1 identifies and describes the changes. Enclosure 2 is the entire revised Plan. Enclosure 3 consists of revised drawings, which are part of the Security Plan and are identified in Appendix C to the Plan. Vertical lines in the right-hand margins of the Plan pages identify the locations of the changes. These changes do not decrease the safeguards effectiveness of the Plan and are submitted pursuant to 10 CFR 50.54(p).

The enclosures contain safeguards information which is to be protected against unauthorized disclosure in accordance with 10 CFR 73.21.

Kindly acknowledge receipt of this material on the enclosed copy of this letter and return it in the enclosed addressed envelope.

Sincerely,

J. D. Shiffer
for J. D. Shiffer
