Hi Zach,

I have one additional form for you to provide if you don't mind. Please see the attached example of a RSO Delegation form and provide me one back, signed by a management representative. If you have any questions, please let me know.

Thanks very much,

Casey

No problem at all. I thought that may be the case so I wanted to be sure. The Form 313 is a little confusing, especially since you were applying to be the RSO, but Box 2 "Name and Mailing Address of Applicant" is the licensee name and address, not the person filling it out. No worries. I'm processing the change now. You should see an amendment in the next couple days.

Thanks,
Casey

Mr. Alldredge,

My apologies, Box 38 is the correct mailing address for Talen Energy in Colstrip MT. Box 511 is my personal mailing address and an error made by me on the form.
If you have any further questions please let me know.

Regards,

Zach Gilliland

[External Email]

Good morning Mr. Gilliland,

I am reviewing your license amendment request and noticed in your March 11, 2020 submittal that the mailing address for Talen Montana is different than what we have on file. Currently, the license says Box 38, vs PO Box 511. Could you please confirm that you would like it changed to 511?

Thanks very much,

Casey Alldredge

Model Delegation of Authority to Radiation Safety Officer

Memo To: Radiation Safety Officer
From: Chief Executive Officer
Subject: Delegation of Authority

You, Zach Gilliland, have been appointed radiation safety officer and are responsible for ensuring the safe use of radiation. You are responsible for managing the Radiation Protection Program; identifying radiation protection problems; initiating, recommending, or providing corrective actions; verifying implementation of corrective actions; stopping unsafe activities; and ensuring compliance with regulations. You are hereby delegated the authority necessary to meet those responsibilities, including prohibiting the use of byproduct material by employees who do not meet the necessary requirements and shutting down operations, when justified, to maintain radiation safety. You are required to notify management if staff does not cooperate and does not address radiation safety issues. In addition, you are free to raise issues with the U.S. Nuclear Regulatory Commission at any time. It is estimated that you will spend 2 hours per week conducting radiation protection activities.

Todd D. Wull
Signature of Management Representative
