Attention: Dr. Glenn

Gentlemen:

I was advised on this date by Phil Palilla that our Application for a license to operate a Troxler Nuclear Gauge has been set aside in your office pending receipt of the applicable fee of \$230.00. We inadvertently failed to submit the fee with the application a few weeks ago so I am enclosing our check in that amount.

We would appreciate your processing this Application, as soon as possible, since the construction project to which the gauge will be assigned is scheduled to begin in October.

Very truly yours,

M.J. McTish, P.E.
