VOGTLE ELECTRIC GENERATING PLANT - UNITS 1 AND 2  
VOGTLE-SCE&G 230 kV TRANSMISSION LINE ENVIRONMENTAL ASSESSMENT

Dear Mr. Denton:

The Vogle - South Carolina Electric & Gas (SCE&G) 230 kV transmission line was discussed in Amendment 5 to the Environmental Report - Operating License Stage (Section 3.9, March 15, 1985). Pursuant to the Utility Facility Siting and Environmental Protection Act, SCE&G is required to provide an environmental assessment of the proposed route. The environmental assessment is necessary for completion of the Application for a Certificate of Environmental Compatibility and Public Convenience and Necessity for Electric Transmission Line Construction as required by the State's Public Service Commission. Attachments I and II are the environmental assessment and application for the Vogle-SCE&G line. A report on the location, identification and assessment of cultural resources which could be affected by the proposed right-of-way is being prepared and will be submitted to the NRC staff when it is completed.

If you have any questions concerning the enclosed information please contact us.

Yours very truly,

*J. A. Bailey*
