SUBJECT: NRC INSPECTION REPORT NO. 45-25287-01/97-91

Dear Mr. Ackermann:

Thank you for your response of March 15, 1997, to our Notice of Violation, issued on February 13, 1997, concerning activities conducted under NRC License No. 45-25287-01.

In your response to the violation of 10 CFR 30.34(b), you indicated that Professional Services Industries, Inc. (PSI) had no control over the failure of Geo Design Consultants to notify the NRC of the transfer of ownership to PSI and that you notified the NRC of the transfer in a letter dated October 16, 1996. Upon further review of this issue, the NRC has determined that the violation of 10 CFR 30.34(b) would have been more appropriately assessed against Geo Design Consultants, an entity that no longer exists. PSI's operation under the Geo Design license that was transferred without the requisite notification and approval of NRC could constitute a violation of 10 CFR 30.3 (operating without a license). However, on the basis of all the facts of this case, we are withdrawing the violation of 30.34(b) and considering the issue closed.

We will examine your corrective actions during a future inspection. Your cooperation in this matter is appreciated.

Sincerely,

151
