Re: Assignment #96-02

Dear Mr. Broaddus:

Our request to register five (5) different models of time measuring instruments should be modified to the first three 100/1, 100/2, and 100/3. We are still interested in pursuing at a later date the other two registrations. To avoid delays we would like to re-submit on these items at a later date, defining more closely the parameters.

Sincerely,

Lawrence Keating
President
