

The Honorable Terry Concannon
Mr. Evan Woollacott
• Co-Chairs
Nuclear Energy Advisory Council
Room 4035
Legislative Office Building
Capitol Avenue
Hartford, CT 06106

Dear Ms. Concannon and Mr. Woollacott:

I am responding to your letter of April 25, 1997, to the Chairman in which you emphasized the importance of the NRC's and your Council's oversight efforts to ensure that an objective and competent review is performed by the independent Corrective Action Verification Program contractor. We plan to carry out our regulatory oversight program, including inspection activities and licensing reviews to ensure a thorough and objective evaluation at Millstone.

I appreciate your active participation and valuable input to date. The staff will continue to offer you the opportunity to participate in the NRC's future oversight activities at Millstone.

Sincerely,

Samuel J. Collins, Director
Office of Nuclear Reactor Regulation

Dear Ms. Concannon and Mr. Woollacott:

Thank you for your letter to the Chairman of April 25, 1997, which emphasized the importance of the NRC staffs' and your Council's oversight efforts to ensure that an objective and competent review is performed by the Independent Corrective Action Verification Program contractor. We plan to employ a number of atypical reviews, approvals, and inspection activities to aid in this oversight effort.

I appreciate your active participation and valuable input to date. The staff will continue to offer you the opportunity to participate in the NRC's future oversight activities at Millstone.

Sincerely,

Samuel J. Collins, Director
Office of Nuclear Reactor Regulation
