SUBJECT: VP Milestone Summary Report, December, 1985

WM DOCKET CONTROL
CENTER
86 JAN 16 AM 11:52

Attached for your review and use is the VP Milestone Summary Report for the month of December. The report summarizes progress on milestone activities at all sites and is comprised of the following parts:

- o **Project Cumulative Status Sheet.** This sheet illustrates the numbers of properties which have reached the principle milestones at each site. The sheet also shows the numbers of activities which are awaiting completion in critical areas. This summary sheet is appended with a legend which describes the categories of the status sheet.
- o **Outstanding Milestone Activities Sheets.** A series of these sheets is provided for each site at which milestone activities are underway. Properties are grouped by RA progress resulting in a graphical representation of properties queued for each identified activity. This is the first issue since the implementation of the new VPDMS software. This file can be electronically transferred to you, if you desire. Contact Andrew Clark if you need a copy transmitted to you.

The purpose of these two sets of information is to provide a snapshot summary of progress on significant activities at each site, and to help identify the bottlenecks to remedial action completion.

Please continue to review the attached information and subsequently bring to my attention any data which is incorrect or not current. It is very important that the VPDMS correctly reflect progress at all our sites.

Thank you in advance for your review and attention to this matter.

Project Cumulative Status Sheet - Legend

Cote Designations

- | | |
|-----|---|
| HIS | - Historical; those activities accomplished prior to January 1, 1984. |
| DT | - Dovetails; those activities associated with Grand Junction dovetail properties, including historical dovetail activities. |

Activity Designations

- | | |
|-------------------------------|--|
| Designated | - Those properties designated by the DOE in the February 2, 1984, Federal Register. |
| Estimated Surveys | - Estimate of number of properties to be surveyed based upon historical evidence and judgement. |
| Surveys Completed | - Radiological surveys completed by the ISC (ORNL). |
| Surveys To Do | - Estimated surveys minus surveys completed. |
| Need Recommend. | - Properties surveyed with no inclusion/exclusion recommendation by the ISC. |
| Recommended | - Inclusion or Exclusion recommendation provided by the ISC. |
| Decisions | - Inclusion or Exclusion decision provided by the DOE. |
| Outstanding Decisions | - Inclusion recommendations minus inclusion decisions and exclusion recommendations minus exclusion decisions. |
| REA Approved | - REAs approved by the State/Tribe, DOE and property owner. |
| REA Need Approval | - Properties included with no REA approval. |
| RAA Executed | - RAAs approved by the State/Tribe, DOE and property owner. |
| REA Approved, RAA in Progress | - Properties with approved REAs but no approved RAAs. |

Project Cumulative Status Sheet - Legend
(continued)

- Props. Bid - Properties bid package issued for remedial action.
- RAA Approved; Awaiting Bid - RAAs approved by property owner/state/tribe/DOE but property not bid.
- RAs Complete - Properties with signed RAA Appendix C.
- Bid; RA in Progress - Properties which have been bid and have not been completed.
- Comp. Rpt. - Completion Reports issued by the RAC to DOE for certification.
- Needing Comp. Rpt. - Properties with remedial action complete but without Completion Reports submitted.
- Props. Cert. - Properties which have been certified by DOE.
- Need Cert. - Properties which have been completed and had Completion Reports submitted but have not been certified.

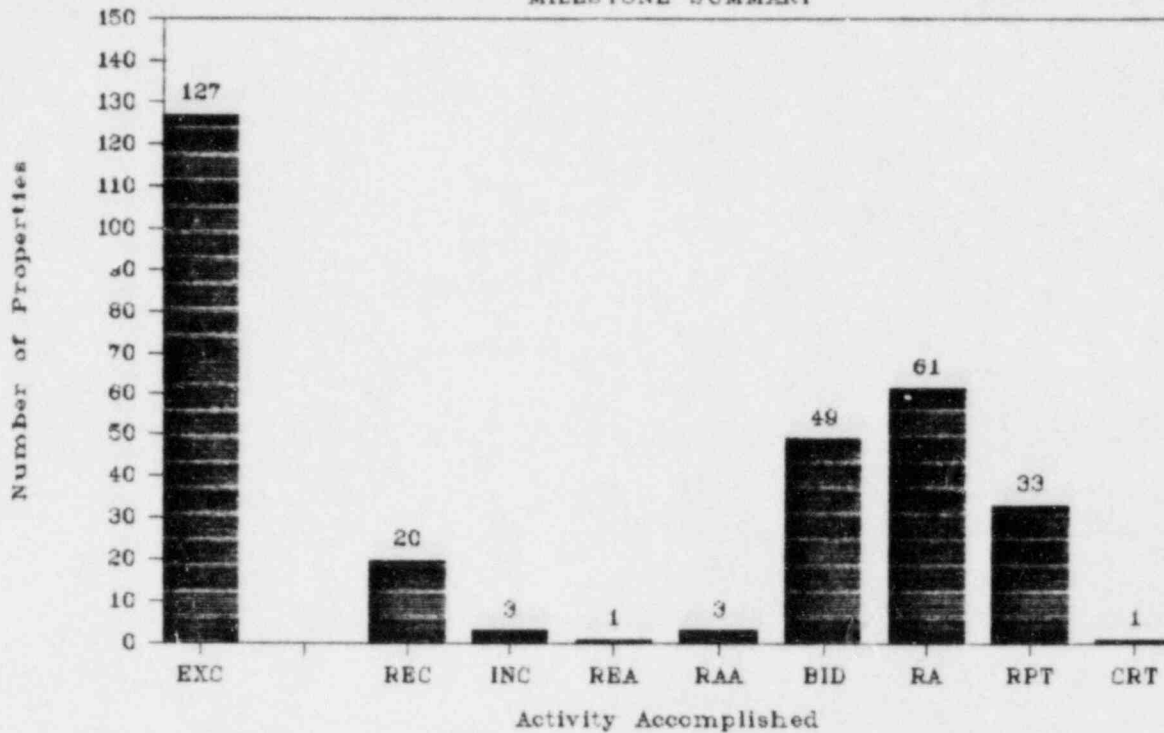

PROJECT CUMULATIVE STATUS SHEET
