Dear Mr. Eisenhut:

Re: St. Lucie Unit 2
Docket No. 50-389
Final Safety Analysis Report-
Request for Additional Information

Attached is Florida Power & Light Company's response (copies MCD-120-1 through MCD-120-3) to the June 25, 1981 Physical Security Licensing Branch request for additional information. FPL will submit a revision to the St. Lucie Plant Security Plan incorporating the attached changes and the commitments identified in our letter dated April 24, 1981 (L-31-178) by March 31, 1982. At that time the security plan drawings will be updated. A separate appendix will be added to indicate current commitments and specific dates of completion on security plan components. This revision will reflect a single site security plan and all references to St. Lucie Unit 2 construction will be deleted.

Very truly yours,

Robert E. Uhrig
