This refers to the inspection conducted on May 23, 1997 (with continued NRC in-office review through June 2, 1997) at Secor International, Inc., Cleveland, Ohio. The purpose of the inspection was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements. At the conclusion of the inspection, the findings were discussed with you.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license.
