

ENCLOSURE 1

NOTICE OF VIOLATION

North Atlantic Energy Service Corporation
Seabrook Station, Unit 1

Docket No. 50-443
Licensee No. NPF-86

During an inspection conducted March 3-6, 1997, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedures for NRC Enforcement Actions," NUREG-1600, the violation is listed below.

The Seabrook Station Physical Security Plan, Revision 21, dated November 11, 1996, Section 6.7, "Vehicle Access," states, in part, "Licensee designated vehicles...remain in the protected area except for operations, maintenance, repair, security and emergency purposes...After initial entry these vehicles only leave the protected area for the purpose of servicing, repairs, emergencies, moving supplies from the warehouse or other directly related activities."

Contrary to the above, on March 5, 1995, there were 35 Licensee Designated Vehicles in use outside the protected area for purposes other than servicing, repairs, emergencies, moving supplies from the warehouse or other directly related activities.

This is a Severity Level IV Violation (Supplement III).

Pursuant to the provisions of 10 CFR 2.201, North Atlantic Energy Service Corporation is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555, with a copy to the Regional Administrator, Region I, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. Your response may reference or include previous docketed correspondence, if the correspondence adequately addresses the required response. If an adequate reply is not received within the time specified in this Notice, an order or a Demand for Information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

Because your response will be placed in the NRC Public Document Room (PDR), to the extent possible, it should not include any personal privacy, proprietary, or safeguards information so that it can be placed in the PDR without redaction. However, if you find it necessary to include such information, you should clearly indicate the specific information that you desire not to be placed in the PDR, and provide the legal basis to support your request for withholding the information from the public.

Dated at King of Prussia, PA
this 30th day of May, 1997.
