Gentlemen:

This refers to the routine safety inspection conducted by Mr. T. Ploski and others of this office on January 6-10, 1986, of activities at the LaSalle County Nuclear Generating Station, Units 1 and 2, authorized by NRC Operating Licenses No. NPF-11 and No. NPF-18, and to the discussion of our findings with Mr. G. Diederich and others of your staff at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

During this inspection, certain of your activities appeared to be in violation of NRC requirements, as described in the enclosed Notice. The inspection showed that action had been taken to correct the identified violation and to prevent recurrence. Our understanding of your corrective actions are described in Paragraph 8 of the enclosed inspection report. Consequently, no reply to the violation is required and we have no further questions regarding this matter at this time.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC Public Document Room.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,
