Dear Dr. Jackson,

As we informed you, in our last letter, in order to analyze the different issues regarding the radioactive waste management and its legal framework, an inquiry Sub-Committee has recently been created within the Industry Committee of the Spanish Senate.

For this purpose, a parliamentary delegation made up of ten senators, members of the above mentioned Sub-Committee, will visit the United States on the second week of May.

It would be extremely useful if you kindly accept to hold a meeting with us regarding these issues, in order to learn as much as possible about the United States experience.

This meeting could take place on 12 of May. We would send you further information about the place where the meeting will be hold.

I thank you in advance, looking forward hearing from you.

Yours faithfully

Luis Antonio Chao Gómez
