Construction Permit Nos.

CPPR-170

CPPR-171

Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

SUBJECT: Marble Hill Nuclear Generating Station, Units 1 and 2

Dear Mr. Denton:

As I indicated in my letter of February 6, 1984, PSI intends to keep you informed of significant changes in the quality assurance program of the Marble Hill Nuclear Generating Station. Due to the cancellation of construction activities and in keeping with PSI's intention of investment recovery, the quality assurance program is being revised to reflect the organizational structure of the Investment Recovery Program.

This will result in revisions consisting of changes in titles and reporting lines, and elimination of no longer applicable criteria. The quality assurance programmatic controls which will be affected for our sales effort will closely parallel those existing in the present "PROJECT QUALITY ASSURANCE MANUAL". The revised program entitled "INVESTMENT RECOVERY QUALITY ASSURANCE MANUAL" is in compliance with the applicable requirements of 10 CFR 50, Appendix B which relate to our Investment Recovery Program.

If you have any questions, please contact me at your convenience. Thank you for your consideration.

Sincerely,

8604040415 860401
