Iowa Department of Transportation  
ATTN: Bernard Brown  
Materials Engineer  
800 Lincoln Way  
Ames, IA 50010

Gentlemen:

Enclosed is Amendment No. 07 to your NRC License No. 14-06077-03 in accordance with your request.

Please note that Condition 14.A(1) of your license has been modified to incorporate the six month leak test frequency for the Troxler Model 3241 asphalt content gauge and the Troxler Model 3400 series moisture/density gauges.

Please review the enclosed document carefully and be sure that you understand all conditions. You must conduct your program involving radioactive materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations. In particular, note that you must:

1. Operate in accordance with NRC regulations 10 CFR Part 19, "Notices, Instructions and Reports to Workers; Inspections," 10 CFR Part 20, "Standards for Protection Against Radiation," and other applicable regulations.
2. Possess radioactive material only in the quantity and form indicated in your license.
3. Use radioactive material only for the purpose(s) indicated in your license.
4. Notify NRC in writing of any change in mailing address.
5. Request and obtain appropriate amendment if you plan to change ownership of your organization, change locations of radioactive material, or make any other changes in your facility or program which are contrary to your license conditions or representations made in your license application and any supplemental correspondence with NRC. Any amendment request should be accompanied by the appropriate fee specified in 10 CFR Part 170.
6. Submit a complete renewal application with proper fee or termination request at least 30 days before the expiration date on your license. You will receive a reminder notice approximately 90 days before the expiration date. Possession of radioactive material after your license expires is a violation of NRC regulations.
7. Request termination of your license if you plan to permanently discontinue activities involving radioactive material prior to your expiration date.

NOV 22 1985

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions and representations in your license application will result in enforcement action against you in accordance with the General Policy and Procedures for NRC Enforcement Actions, 10 CFR Part 2, Appendix C.

If you have any questions or require clarification of any of the above stated information, contact us at (312) 790-5625.

Sincerely,

Original Signed By  
Patricia J. Whiston

SUBJECT

Amendment request to add Trooper

gauge to lic. no. 14-06077-03. CN 79962

SUMMARY

I called requesting clarification of model no. for Trooper gauge they wish to possess. I explained that we had no listing of a 3141-B Ambe asphalt content gauge. However we do have a 3241 model no. listed for Dep. Tmc. Dwg 100337.

Mr. Brown checked his records & stated that they do wish to possess the 3241 model no. asphalt content gauge.

I told Mr. Brown that I would prepare amendment accordingly.
