

APR 1 1986

NOTE FOR: License 34-18214-01 ✓
Device Registration NR-523-D-101-S
Device Registration NR-523-D-102-S

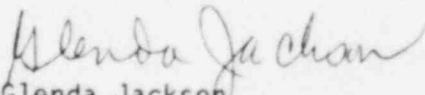

FROM: Glenda Jackson, Materials Program Coordinator
License Fee Management Staff, ADM

Amendment No. 03 was issued to License 34-18214-01 in accordance with a 11/23/83 application for renewal and a 4/20/84 application for amendment. The 4/20/84 application was a request for authorization to manufacture, service and distribute Overhoff & Associates Gauges. The following fees were paid for the 4/20/84 application in accordance with the 3/78 fee schedule:

\$460 3A application fee
\$950 3G application fee
\$ 40 amendment fee (for demonstration activities requested)

Amendment No. 03, which renewed the license for 5 years, authorizes research and development, manufacturing, distribution to specific licensees, leak testing, and other services. As of the issue date of Amendment No. 03, License 34-18214-01 is classified in fee Categories 3B, 3N, and 3P. The research and development is covered by 3B. Since the application was filed prior to the 6/84 fee schedule and the 3/78 fee schedule did not provide for separate charges for services for other licensees, the fees collected are correct.

The application for a license to distribute to general licensees was not approved; therefore, registration sheets were issued limiting distribution to specific licensees only. Since the application was filed prior to the 6/84 fee schedule, and at that time device evaluation fees were included in the 3G fee category, additional fees are not due for the device evaluations.
