Office of Nuclear Materials
Safety and Safeguards
Mail Stop T7J9
U.S. Nuclear Regulatory Commission
11545 Rockville Pike
Rockville, MD 20852-2738

Dear Mr. Holonich:

Enclosed are four copies of the Completion Report (three volume set), dated June 1997, for the Slickrock, Colorado, Uranium Mill Tailings Remedial Action Project. Per agreements made between the Department of Energy (DOE) and the Nuclear Regulatory Commission (NRC) this document is provided as a final. Upon resolution of any comments you may have the document will be modified, as appropriate, by issuing page changes. Please note we have not completed the final as-built drawing. The drawing will be submitted when responding to agency comments. This document is considered by the DOE to be a part of the deliberative process and should not be released to the general public at this time.

Also enclosed is an original signed signature page for incorporation into the Slickrock Remedial Action Plan (RAP). Please insert this as the first page in the Remedial Action Selection Report. Incorporation of the signature page constitutes publication of the final RAP. Any subsequent revision to the final RAP will require the concurrence of the NRC and Colorado Department of Public Health and the Environment.

Give me a call at (505) 845-5668 if you have any questions.

Sincerely,

Sharon J. Arp
Site Manager
Uranium Mill Tailings Remedial Action Team
Environmental Restoration Division
