Dennis L. Ziemann, Acting Chief
Operating Reactor Branch #2
Division of Reactor Licensing
SPECIAL NUCLEAR MATERIAL ALLOCATION FOR PACIFIC GAS AND ELECTRIC -
DOCKET NO. 50-133

By Amendment No. 27 to the application, the Pacific Gas and Electric Company has requested conversion of Provisional Operating License No. DPR-7, for their 240 thermal megawatt Humboldt Bay Unit No. 3 nuclear power reactor, to a full-term operating license. Attached is Appendix B to the application amendment which is an estimated schedule of transfers and returns of special nuclear material.

Please review this information and furnish us with a recomputation of the allocation based on the new schedule of transfers and returns of special nuclear material submitted by Pacific Gas and Electric.
