NRC Docket No. 50-341
NRC License No. NPF-43

Subject: Licensee Event Report (LER) No. 97-012

Detroit Edison is submitting the enclosed LER No. 97-012 as a voluntary LER. This LER documents issues identified in the performance of surveillance testing for the Reactor Recirculation System motor generator set mechanical and electrical stops. This surveillance testing is considered adequate by Detroit Edison; and therefore, this event is not considered to be a condition prohibited by the Technical Specifications.

There are no commitments being made in this LER.

If you have any questions, please contact Norm Peterson at (313) 586-4258.

Sincerely,

1/1

Le22
