Re: Mail Control No. 104859

Dear Ms. Johansen:

This is in response to your letter dated January 31, 1986 regarding our request to amend License No. 37-06855-01.

We hereby request that the radioisotopes of concern, phosphorus-32, cobalt-60, rubidium-86 and Iron-59, be removed from consideration in the amendment request.

At such time that specific need for any of these nuclides arises we will apply for an additional amendment detailing the radiation safety procedures to be initiated.

Sincerely,

A handwritten signature in cursive script that reads "Joseph Flamini".
