Vice President - Nuclear
P. O. Box 208
Wichita, Kansas 67201

Gentlemen:

Thank you for your letter dated March 14, 1986. The NRC staff has concluded the initial review of changes made to the Emergency Plan, dated February 1986, and requests additional information. Our review indicates that some of the planning guidance elements of NUREG-0654 do not appear to have been adequately addressed. Because of this, additional information is required so that we may complete the review of the revised emergency plan.

The items which require additional information are identified in the enclosure. It is requested that you respond to this office with your written reply within 30 days after receipt of this letter.

Sincerely,

"Original Signed by:"

J. E. Gagliardo, Chief
Reactor Projects Branch
