Mr. K. P. Powers
Plant General Manager
Big Rock Point Nuclear Plant
Consumers Power Company
10269 US 31 North
Charlevoix, MI 49720

SUBJECT: NRC INSPECTION REPORT 50-155/97006(DRS)

Dear Mr. Powers:

On May 2, 1997, the NRC completed a security inspection at your Big Rock Point Nuclear Plant. The enclosed report presents the results of that inspection.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

The objective of the inspection effort was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements. The enclosed report presents the results of that inspection.

No cited violations of NRC requirements were noted in the areas inspected. The Vehicle Barrier System was effectively implemented. Some procedure weaknesses were noted in reference to the Vehicle Barrier System. Positive observations were noted in several areas inspected including, for example, security force training and security force performance.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room (PDR).

Sincerely,

/s/ Cynthia D. Pederson
Cynthia D. Pederson, Director
Division of Reactor Safety
