Deputy Director for International Programs  
Office of International Programs  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20545

Dear Joe:

I am enclosing a resumé of Mr. Miranildo Cabral da Silva of FURNAS, Centrais Eletricas SA of Rio de Janeiro, Brazil.

Mr. Cabral da Silva would like to join our Risk Evaluation Group headed by Dr. R. Youngblood for a 6-month on-the-job training program starting about May 15, 1985. Mr. Cabral da Silva would participate in an NRC Division of Safety Technology sponsored program on the review of the Ocone PRA (FIN A-3797). All of his salary, travel and living expenses would be covered by his home institution, FURNAS Centrais Eletricas SA.

I would appreciate it if you would concur with our providing an appointment to Mr. Cabral da Silva for this 6-month on-the-job training.

Best personal regards.

Sincerely yours,

*Walter Y. Kato*

Dear Joe:

We have recently received a request for Dr. Luiz Alberto Arrieta of the Brazilian National Nuclear Energy Commission (CNEN) to join our staff for a period of one year as a Visiting Scientist to participate in our NRC (DST) sponsored programs on reviews of probabilistic risk assessment [PRA] (FIN A-3777), and Code Establishment, Analysis, and Maintenance (FIN A-3794). Dr. Arrieta, as a technical member of CNEN, is very familiar with safety issues related to PWRs and was a key contributor to the ANGRA-1 PRA. He is a very capable reliability and risk analyst and his association with our Safety & Risk Evaluation Division will be mutually beneficial. His salary and travel expenses would be our responsibility as a Visiting Scientist on our staff.

I am enclosing a copy of his resumé and BNL Personal Information Form.

Since we would plan to accept him within the framework of the USNRC-CNEN understandings, I would appreciate your concurrence.

Best personal regards.

Sincerely yours,

*Walter Y. Kato*
