OYSTER CREEK TOWER INCREASE

All documents relating to Jersey Central's request to increase the maximum steady state power level of the Oyster Creek Nuclear Power Plant have been handled as Category "B" items. Listed below are the documents that should be reviewed in evaluating the proposed power increase. These documents should be retained for possible further review when the Committee considers the conversion of the Provisional Operating license to a full term Operating License.

Semi-Annual Report No. 1 (May 3, 1969-December 31, 1969)	transmitted	April 21, 1970
Amendment No. 55 (Request to operate at increased power)	transmitted	May 18, 1970
Amendment No. 57 (Corrections and supplements to Amendment No. 55)	transmitted	June 26, 1970
Amendment No. 58 (Oyster Creek Startup Testing Results)	transmitted	August 27, 1970
Semi-Annual Report No. 2 (January 1, 1970-June 30, 1970)	transmitted	August 27, 1970
Amendment No. 63 (Addition information in support of Amendment No. 55)	transmitted	September 25, 1970
