Dear Dr. Webb:

Per your request of August 29, 1985, enclosed is a copy of Mr. Dircks' memo which defines further actions to be taken by the staff as a result of the June 9, 1985 event at Davis-Besse.

Although evidently you were unable to find them, I have confirmed that the following documents were placed in the Public Document Room: (1) the emergency procedure discussed in the Team's report concerning actions to be taken upon loss of feedwater; and (2) the attachment to a June 15, 1979 letter to the NRC from Toledo Edison. However, for your convenience, I have enclosed these two documents for your information and use.

Sincerely,

Original Signed by
C. J. Heltemes, Jr.
