SUBJECT: NRC CONSENT TO LICENSE TRANSFER, NRC LICENSE NO. 13-32555-01

Dear Dr. Park:

By letter dated March 18, 2020, American Health Network of Indiana, LLC submitted to the U.S. Nuclear Regulatory Commission (NRC) a request for consent to license transfer of NRC Materials License No. 13-32555-01. Specifically, the licensee informed the NRC that the licensee sold its assets to Center for Diagnostic Imaging. The letter is available electronically from the NRC's Agencywide Documents Access and Management System (ADAMS) at Accession No. ML20078J990. Further, we understand that this transfer will not result in any change to the licensed materials, or the location of use of licensed material.

Based on the above understandings and as more fully detailed in the enclosed NRC staff's Safety Evaluation Report which documents the NRC staff's review of the request, we have no objection to the proposed transfer.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

B. Park
