Gulf States Utilities
ATTN: Mr. James C. Deddens
Senior Vice President, (RBNG)
Nuclear Licensing
P.O. Box 220
St. Francisville, Louisiana 70775

Gentlemen:

This refers to the inspection conducted by Messrs. D. E. Norman and R. V. Azua of this office during the period January 19-22, 1988, of activities authorized by NRC Operating License NPF-47 for River Bend Station, and to the discussion of our findings with you and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included a followup of actions related to IE Bulletin 85-03. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the NRC inspectors. The inspection findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

Three unresolved items are identified in paragraphs 2.c(3) and 2.d(4) of the enclosed inspection report.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Original Signed by
