Gentlemen:

Subject: Release of Radiochemistry Facility to General Use.

We have discontinued the use of open radioactive isotopes at this location. Therefore, we are asking permission to release our radiochemistry laboratory for non-restricted use. This laboratory is located at American Cyanamid Company, Stamford Research Laboratories, Rooms 491 A and B, 1937 West Main Street, Stamford, CT 06904.

The radiochemistry laboratory has been decontaminated and surveyed by The NDL Organization, PO Box 791, Peekskill NY 10566. Their report is attached to this letter.

At the same time, I would like to ask that our Materials License be amended. We only wish to retain items 6G (Titanium Tritide Foil) and 6H (Nickel 63 Foils) of our current license. Please remove items 6A through 6F. The \$120.- fee for license amendment is attached to this letter.
