Dear Mr. Hoyle:

Enclosed please find an application from Transnuclear, Incorporated for a license to export 10,581 kilograms uranium enriched to 3.40% uranium-235 for use as reload fuel for the Doel 2 Reactor in Belgium.

Before taking action on this license application, we would appreciate your views, in accordance with established procedures and from the overall perspective of the Executive Branch, as to whether the issuance of the requested license would be inimical to the interests of the United States, including the common defense and security, and whether the proposed export meets the applicable criteria in the Atomic Energy Act as amended by the Nuclear Nonproliferation Act of 1978.

Sincerely,

A handwritten signature in dark ink, reading "Gerald G. Oplinger". The signature is fluid and cursive, with the first name "Gerald" being the most prominent.
